5001. Tropical Paradise Adirondack Chair

Sit back, relax and imagine you are on the beach in this custom-made Tropical Paradise Adirondack Chair. Crafted by Greg, the beautiful parrot and tropical flowers are painted free-hand by Karen. No stencils or decals in their designs. Greg builds the chairs from fir, sands them, adds two coats of waterproofing before painting each chair a solid color. Then Karen paints her designs and she paints everything free-hand! The chair is finished with two clear coats. They advise using a clear spray sealer every year before storing it for the winter to preserve the paint and wood. This Adirondack chair also folds, which makes storing it for the winter or moving it so convenient. The winning bidder also receives a coupon for \$25 off the cost of a future Adirondack chair.

5023. Four Geodes

Geodes are irresistible! They fill display cases and museums everywhere. It's hard to deny the allure of a rock that is rugged and weathered on the outside, yet so sparkly and colorful on the inside. These geodes were found in Hamilton, Illinois. They are nick-named Keokuk Geodes though because they were studied on the lowa side of the river. Three of these were cut in half and polished, the other had too many sparkly crystals to polish. These are great for indoor or outdoor decorations or even used as bookends.
