Objectives

At the end of this conference, participants will be able to:

1. Describe the management of atypical wounds, including surgical and nonsurgical interventions.
2. List factors contributing to deep tissue injury and pressure ulcers.
3. Develop a plan of care for prevention of deep tissue injury and pressure ulcers.
4. Identify appropriate documentation examples for skin assessment and wound management.
5. Select interventions to prevent and heal incontinence associated dermatitis.
6. Identify the latest approaches to venous stasis management.
7. State examples of future trends in wound management.

Intended Audience

The purpose of this offering is to provide healthcare workers with the most current wound care information which will enrich the quality of care provided to our patients.

- Nurses interested in wound care
- Physicians of all specialties who provide wound care
- Clinical nurse specialists, Nurse Practitioners, Physician Assistants
- Nursing home administrators and health care professionals
- Home health staff
- Physical Therapists and Physical Therapy Assistants
- Occupational Therapists and Occupational Therapy Assistants
- Health Care professionals who deal with chronically ill patients who may be at high risk for wound development

Accreditation

Memorial Health System is an approved provider of continuing nursing education by the Illinois Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.
