

## Objectives for Graduation

### *Appendix A (Must be seen and documented by students)*

- A1. abdominal pain
- A2. abnormal ECG
- A3. acid Base disorders
- A4. acute illness in an infant/child
- A5. allergic reactions
- A6. anemia/pallor
- A7. back pain
- A8. breast disorders
- A9. chest discomfort/angina pectoris
- A10. contraception
- A11. dementia/memory disturbances
- A12. diarrhea/constipation
- A13. dizziness/vertigo
- A14. difficulty swallowing
- A15. dyspnea/shortness of breath
- A16. ear pain
- A17. electrolyte disorders
- A18. eye redness/pain
- A19. falls
- A20. fatigue
- A21. fever/chills
- A22. fractures/dislocations/joint injuries
- A23. gait disturbances
- A24. gastrointestinal bleeding
- A25. headache
- A26. hearing loss/deafness
- A27. hemoptysis
- A28. hyperglycemia/diabetes mellitus
- A29. hypertension
- A30. immunocompromise/immunodeficiency
- A31. impaired consciousness
- A32. Issues of bad news/dying patients
- A33. jaundice (adult & infant)
- A34. joint pain, non-traumatic
- A35. leukocytosis/leukopenia
- A36. lymphadenopathy
- A37. menstrual cycle – abnormal
- A38. mood disorders
- A39. murmur/abnormal heart sounds
- A40. numbness/tingling/paresthesias
- A41. painful limb
- A42. panic/anxiety disorders
- A43. pap abnormality
- A44. pelvic pain/dysmenorrhea
- A45. periodic health examination/growth & development
- A46. pregnancy/delivery
- A47. Preventive Health Care/Cancer screening/STD screening
- A48. psychotic patient/disordered thought
- A49. renal failure: acute or chronic
- A50. rhinosinusitis (rhinorrhea/sneezing/nasal congestion/sinus congestion)
- A51. scrotal mass/pain
- A52. seizures (epilepsy)
- A53. sexual dysfunction
- A54. shock/hypotension
- A55. Skin lesions
- A56. sleep disturbances
- A57. sore throat
- A58. speech and language abnormalities/dysphonia/hoarseness
- A59. substance use/intoxication/withdrawal
- A60. suicidal thoughts/prevention
- A61. syncope/pre-syncope/loss of consciousness
- A62. thromboembolic disorders
- A63. trauma
- A64. urinary disorder/incontinence/incomplete emptying/frequency
- A65. vaginal bleeding-abnormal
- A66. vaginal/penile discharge
- A67. visual disturbance/loss
- A68. vomiting/nausea
- A69. weakness/paralysis
- A70. weight gain/obesity
- A71. weight loss
- A72. wheezing/cough
- A73. Anxiety disorders
- A74. Personality disorders
- A75. Somatic symptom disorders
- A76. Obsessive-compulsive and traumatic disorders (ie. PTSD)
- A77. Eating disorders

## Objectives for Graduation

### *Appendix B (Must be known by students)*

- B1. abdominal distention
- B2. abnormal liver function tests
- B3. abnormalities of white blood cells
- B4. attention deficit/learning disorder/school failure
- B5. behavioral disorders in children
- B6. bleeding tendency/bruising
- B7. burns
- B8. cardiac arrest/respiratory arrest
- B9. cyanosis/hypoxia
- B10. depressed newborn
- B11. development disorder/development delay
- B12. Diplopia
- B13. Domestic violence
- B14. eating disorders
- B15. edema/anasarca/ascites
- B16. failure to thrive
- B17. fetal distress/non-reassuring fetal status
- B18. genetic/hereditary concerns
- B19. hair and nail disorders
- B20. head injuries/brain death/transplant donation
- B21. hematemesis
- B22. hematuria
- B23. hirsutism and virilization
- B24. infertility
- B25. involuntary movement disorders/tic disorders
- B26. limp/pain in lower extremity in children
- B27. menopause
- B28. mouth/oral disorders
- B29. neck mass/goiter
- B30. obsessive compulsive and traumatic disorders (i.e., PTSD)
- B31. pelvic mass
- B32.
- B33. personality disorders
- B34. poisoning
- B35. polycythemia/elevated hemoglobin
- B36. pregnancy loss
- B37. prematurity
- B38. prolapse/pelvic relaxation
- B39. proteinuria
- B40. pruritus
- B41. pupil abnormalities
- B42. sexual maturation
- B43. sexually concerned patient, gender identity disorder
- B44. Somatic symptom disorders
- B45. sudden infant death syndrome
- B46. spinal injuries
- B47. splenomegaly
- B48. strabismus and/or amblyopia
- B49. tall stature, short stature
- B50. tinnitus
- B51. torticollis
