## “Orthopedic Surgery in Alaska: Unique Aspects of Working in the Last Frontier”

*Monday, December 5, 2022*

*6:30 - 7:30am*

*Memorial Learning Center, 2A*

*The practice of orthopedic surgery in Alaska presents unique challenges. The vast geography, extreme cold temperatures, wildlife, fishing, oil production, and socioeconomic factors all contribute to an interesting and unique array of orthopedic pathology. Dr. Thomas will present a general interest lecture about Alaska and his experiences as an Alaskan orthopedic trauma surgeon for over a decade.*
