

COMMUNITY HEALTH WORK 101 ECHO TRAINING

Starting October 2, 2025

Tuesdays & Thursdays | 10 - 11:30 AM | Virtual

BUILDING CAPACITY

SIU Medicine's Community Health Work 101 ECHO training will help build individual and community capacity by increasing health knowledge and self-sufficiency through a range of activities. Participants will learn to master important topics that will enhance their abilities and knowledge of Community Health Work in order to serve as a liaison between health, social services and the community.

HOW TO REGISTER

To register, scan QR code or visit,

ABOUT PROJECT ECHO

Project ECHO (Extension for Community Healthcare Outcomes) is an "All Teach, All Learn" tele-mentoring program where participants engage in a virtual community with their peers to support, guide and give feedback. As a result, participants gain understanding of how to disseminate and implement best practices across disciplines to improve and expand in their specialty.

PROGRAM TOPICS

Core Skills
Guiding Principles
Public Health
The Social Determinants of Health and Assessment
Communication and Cultural Competency
Capacity Building and Community Outreach
Chronic Conditions
Mental and Emotional Health
Navigating the Health and Social Service System
Safety and Legal Issues for CHW's
Service Coordination Skills
Motivational Interviewing
Trauma Informed Care
Health Care and Health Policy
Health Insurance
Professional Boundaries
Cultural Humility, Mediation, and Appropriate Health Care

*Certificate of completion will be available after each session. Participants must complete required assignments for each session in order to receive the certificate. For the Motivational Interviewing and Trauma Informed Care sessions, participants must attend all sessions of each topic to receive credit.
