SIU School of Medicine Curriculum - Academic Calendar for Class of 2021*

Year 1

2017 / 2018

An introduction to the professional life as a physician including basic clinical skills; basic concepts of diseases and disorders which integrate basic sciences; and the development of life-long learning skills. Emphasis is on physiology, anatomical correlates and cellular mechanisms involved in disease processes.

Learning Activities include: clinical skills, direct patient contacts, paper cases, standardized patients, small group case-based problems, and resource sessions (both small and large group).

Students move through the segments in small groups.
Doctoring Streamer continues throughout the year (PAC, Continuity Clinic, Peer and Self Assessment)
Doctoring in Y1 introduces clinical knowledge and skills (with focus on normal history and physical findings), Geriatrics and Genetics
Remediation Periods: I: June 11-29, 2018 II: June 18-July 6, 2018 III: July 2-20, 2018

Holidays/Breaks
O Three-day orientation starts on Wednesday, August 9, 2017
MPEE=Mentored Professional Enrichment Experience

Year 2

2018 / 2019

A series of integrated clinical/basic science units with more complex clinical problems, advanced clinical skills and emphasis on pathophysiology, microbiology and pharmacology.

Learning Activities include: increased clinical experience in association with advanced students and residents, more complex simulated or real patient problems in small groups, resource encounters and experiences in alternative health care systems.

Doctoring Streamer continues throughout the year (PAC, Continuity Clinic, Peer and Self Assessment)
Doctoring in Y2 reiterates and builds on Y1 knowledge and skills (with switch in focus to abnormal history and physical findings), Geriatrics and Genetics
1) Basic science and clinical co-chairs for the vertical segments
2) Each streamer topic is represented on the Y2CC by an individual to ensure integration into the vertical segments
3) Doctoring and other clinical experiences may be partially delinked from the progression of the segments
4) Horizontal streamer topics will be integrated into the segments and include: a) Evidence-based medicine, epidemiology, preventive medicine, and public and population health; b) Genetics; c) Neoplasia; d) Infection (Microbiology, Immunology, Pharmacology)

Holidays/Breaks
MPEE=Mentored Professional Enrichment Experience

Year 3

2019 / 2020

A series of rotations through major clerkship areas for a breadth of specialty and primary-care oriented clinical experiences, as well as a two-week Doctoring experience focusing on the physician-patient relationship. Faculty cross clinical discipline areas and will include basic scientists.

Learning Activities include: direct patient contact in patient care teams, with continued emphasis on basic science concepts and skills for life-long learning. At the conclusion of this year students should have broad exposure to be able to develop career choices.

Doctoring Streamer

Doctoring Streamer continues throughout the year (includes Geriatrics)
Doctoring: Medical Humanities Clerkship in Y3 focuses on the Physician-Patient Relationship
Students will continue to participate in small group, case-based discussions that promote basic science learning issues

Holidays/Breaks

Year 4

2020 / 2021

Individually-oriented Pathways that provide opportunities for specialty-directed prerequisite skill acquisition, supplemental clinical experience, research, a 4-week Neurology Clerkship rotation, plus a 2-week Doctoring experience, geriatrics, and Y2 mentoring program.

Learning Activities include: direct patient contact in patient care teams, with continued emphasis on basis science concepts and skills for life-long, learning, as well as emphasis on career pathways. At the conclusion of this year, students should be ready to begin residency training.

Students participate in one, two, and four-week and extended electives, as well as residency planning activities

Doctoring Streamer

Doctoring Streamer continues throughout the year (includes Peer and Self Assessment, Geriatrics, Students as Teachers)
Doctoring: Medical Humanities Clerkship in Y4 focuses on The Physician and Society.
Doctoring Requirements include mentoring Y2 Student
Students will continue to participate in small group, case-based discussions that promote basic science learning issues

Holidays/Breaks
4-week electives begin
5-week extended electives begin (no extended electives may be taken during required Clerkships).
