

Citrix Download for Mac

1. Go to www.citrix.com
2. Click on Downloads
3. Select Citrix Receiver as the Product

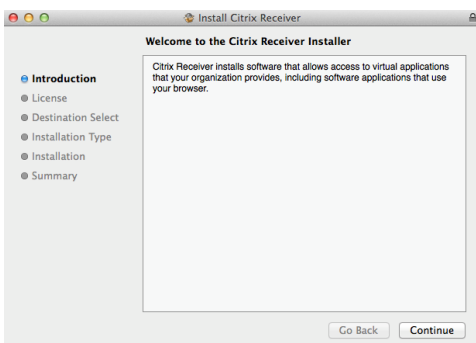

4. Download the Receiver for Mac

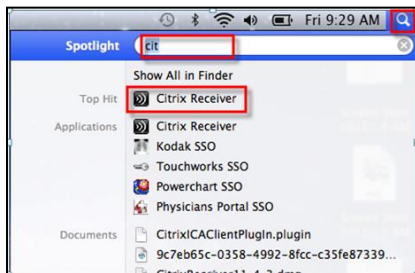

5. Install Citrix Receiver. pkg

6. Continue through the required steps to install the Citrix Receiver.

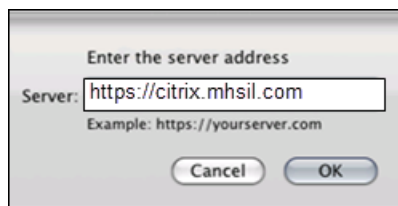

7. Search for your Citrix Receiver using the Magnifying Glass in the upper right hand corner of your desktop.

8. Drag and Drop the Citrix Receiver on Toolbar. You can right click on the icon to lock it to your Toolbar. Launch Citrix.

9. When prompted, enter the Server address <https://citrix.mhsil.com>
10. When prompted, enter User name as memorial1\ and your user name (You must use a backslash to separate memorial1 and your username). Your Password is the same as what you use to access the Physician Portal.

11. You can either access your available applications through the Citrix Receiver or by visiting the Physician's Portal at <https://portal.mhsil.com>. If you are using the receiver, be sure to add the "SSO" version of the applications as favorites.
