### SIU Inpatient St John's Hospital Epic EHR Education

- Medical students will be granted EHR documentation privileges in Epic (St John's Hospital).
- Students may contribute to the E/M Billing document as described below
- <u>Medical students will not document under someone else's username or password.</u>
- Any contribution and participation of a medical student to the performance of a billable service must be performed in the physical presence of a teaching physician or physical presence of a resident in a service meeting the requirements set forth for teaching physician billing.
  - Their documentation can not be used for admission H&Ps or discharge summaries.
  - $\circ$   $\;$  Their documentation can not be used for procedural documentation

What all Medical Students need to do in live Epic environment:

 A medical student may contribute to any section of the daily note by starting/opening the progress note via "new note".

- Once they have selected new note, will have option to choose:
  1.) "progress note" from list of options and
  2.) "service" which will describe the location of care/focus of their note

- By adding smartphrase, the name of the medical student involved in the care will be inserted and time stamped.
- They will then "share" the note to allow for a resident and/or attending to contribute to note
- Student will not edit the note after physician signature.

### What teaching physicians need to do with Epic medical student documentation:

- The faculty must verify in the medical record all student documentation or findings: history, physical exam and/or medical decision making.
- The faculty must personally perform (or re-perform) the physical exam and medical decision making activities of the E/M service being billed.
- In order to review student/resident documentation, in Epic, you can hover over documentation to identify the author and review it
  - o 1. Select any note in Chart Review, Notes or Doc Review
  - o 2. Click on Hover for attribution information inside the body of the note
  - o 3. Hover over the content of the note you want to review

### ATTESTATION:

• Once documentation reviewed, the faculty must add the following attestation. If clicking the attestation enclosed in red, the following will be added to note.

Residents:22760} Op Note & Procedure Attestations:22780} Mid-Level Attestations:23659} Medical Students:22781} Home Health/Hospice Attestations:22761} Emergency Attestations:22759				
Discharge Summary Attestations:22779} Anesthesia Attestations:22757}	J.	Pend	Sign	Cancel

 "A student assisted with the documentation of this service. I saw and personally examined the patient and reviewed and verified all information documented by the student and made modifications to such information, when appropriate". • If both a medical student and a resident documents in the note, the faculty attests to both the student's documentation AND the resident's participation in the care of the patient as shown below:

{Residents:22760	{Resident Critical Care Attest:TXT,56864}         {Resident E&M:TXT,56873}         {Resident H&P Attest:TXT,55954}         {Resident Primary Care Exception:TXT,56876}         {Resident Time-Based Inpatient E&M:TXT,56875}         {Resident Time-Based Outpatient E&M:TXT,56874}         {Resident Attending Review Only, Not Primary Care Exception:TXT,56871}         {Resident and Medical Student note:TXT,61413}

• The faculty must sign and date their documentation.

#### Faculty can give verbal note feedback

 There is no way to "task" feedback electronically between students and faculty in Epic.

General scenarios that satisfy the physical presence requirement:

- Student sees patient alone and obtains history, physical exam, medical decision making. (may be more common on outpatient)
  - Medical student may contribute to documentation
  - Resident and/or faculty MUST see patient, verify history, re-perform physical exam and medical decision making, reviews all and places BOTH medical student and standard resident attestation to note before signing

- Student and resident see patient together, obtain history, physical exam, medical decision making. (may be more common on inpatient)
  - History, physical exam and key decision making takes place together
  - o Medical student may contribute to documentation, resident contributes
  - Faculty MUST see patient, verify history, re-perform physical exam and medical decision making, reviews all and places BOTH medical student and standard resident attestation to note before signing
- Student, resident and faculty all go into exam room together at the same time (may be more common on inpatient) History, physical exam and key decision making all takes place together
  - Medical student may contribute to documentation, resident contributes, faculty reviews all and places BOTH medical student and standard resident attestation to note
